5 CD ULTRA BASS STEREO SYSTEM
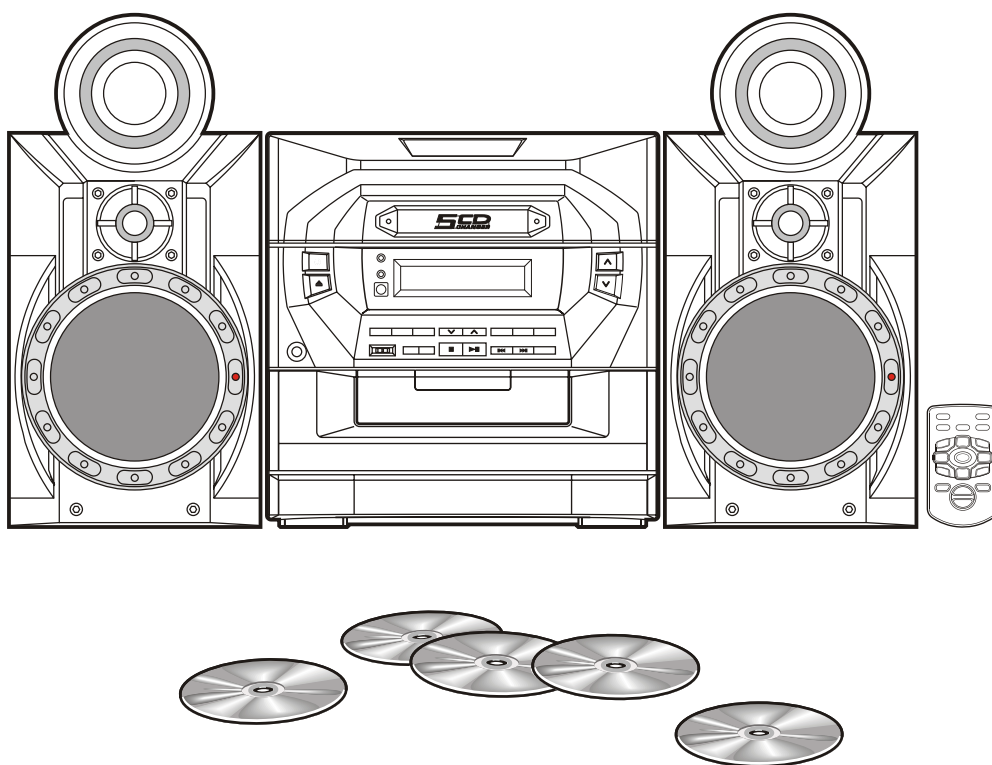

Model : CD2088
INSTRUCTION MANUAL

IMPORTANT SAFETY INSTRUCTIONS

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinch particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Unplug this apparatus during lightening storms or when unused for long periods of time.
13) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been exposed to rain or moisture, does not operate normally, or has been dropped.
14) This appliance shall not be exposed to dripping or splashing water and that no object filled with liquid such as vases shall be placed on the apparatus.

PRECAUTION

Follow the advice below for safe and appropriate operation.

ON PLACEMENT
- Do not use the unit in places which are extremely hot, cold, dusty, or humid.
- Place the unit on a flat and even surface.
- Do not restrict the air flow through the ventilation slots by placing the unit on soft furnishings, by covering the unit with a cloth or by placing the unit on a carpet.

ON AC VOLTAGE
- Before using the unit, check that the rated voltage of your unit matches your local voltage.

ON SAFETY
- When connecting and disconnecting the AC cord, grip the plug and not the cord itself. Pulling the cord may damage it and create hazard.
- When you are not going to use the unit for a long period of time, disconnect the AC power cord.

ON CONDENSATION
- When left in a heated room where it is warm and damp, water droplets or condensation may form inside the CD player.
- When there is condensation inside the unit, the unit may not function normally.
- Let it stand in a heated room for 1 to 2 hours to allow the condensation to dry out.

FCC INFORMATION (For USA only)
This device complies with Part 15 of FCC Rules. Operations are subject to the following two conditions:
1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesirable operations.

Should any trouble occur, disconnect the AC power cord and refer servicing to qualified personnel.

CLASS 1 LASER PRODUCT
APPAREIL Á LASER DE CLASSE 1
PRODUCTO LASER DE CLASE 1
CLASSE 1 PRODOTTO LASER

CAUTION
INVISIBLE LASER RADIATION WHEN OPEN AND INTERLOCKS DEFEATED. AVOID EXPOSURE TO BEAM
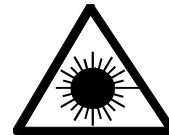

This product contains a low power laser device.

SYSTEM CONNECTIONS

IMPORTANT
Switch off the power before connecting speakers and other equipment.

SPEAKER CORD CONNECTION
Connect the wires with the printed red lines to the red (+) terminals and the plain-black wires to the black (-) terminals.

NOTE : Connecting speakers other than the speakers supplied with the unit, may damage the unit.

SPEAKER TERMINALS IMPEDANCE: 8 ohm (Ω)

$\oplus$ **R** $\ominus$ $\ominus$ **L** $\oplus$
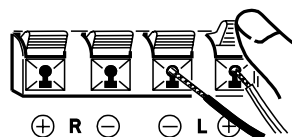

POWER CORD CONNECTION
1. Make sure that all the components and speakers are connected correctly.
2. Check that the rated voltage of your unit matches your local voltage.
   CAUTION
   To prevent electrical shock, match wide blade of plug to wide slot, fully insert. (For USA and CANADA only)

CAUTION
• Be sure the AC power cord is disconnected and all functions are off before making connections.
• When you are not going to use the unit for a long period of time, disconnect the AC power cord.

SPEAKER CONNECTIONS
Connect Speaker wires (Left & Right) from the Speaker to the amplifier's Speaker terminals.
NOTE :   Ensure in each case that the striped (+) wire is connected to the (+) terminal of the speaker output and the non-striped wire (-) is connected to the (-) terminal of the speaker output. Also ensure that the correct orientation for left and right main speakers is observed.
Connect the plug of the Right Speaker to the Speaker LED (R) jack, the other plug of the Left Speaker to the Speaker LED (L) jack and the SPEAKER LIGHTS will light up and control by volume.

RIGHT SPEAKER BOX   To External Source   LEFT SPEAKER BOX

AC Cord to an AC outlet
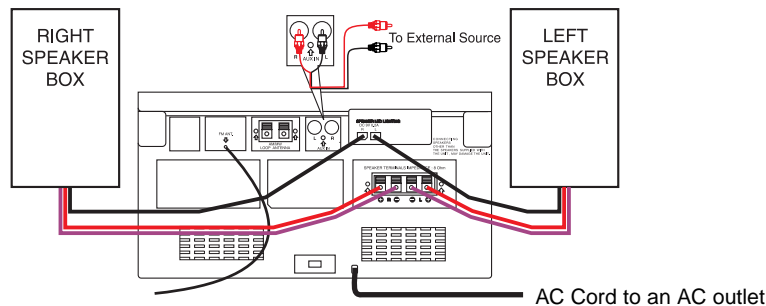

CONNECTION WITH OTHER OPTIONAL EQUIPMENT
To listen to or record audio signals from external units through this unit:
Connect the white plug to the L jack, and the red plug to the R jack of the AUX IN connector.

LISTENING TO THE CONNECTED EQUIPMENT
1. Press the FUNCTION button to AUX.
2. Play the external source.

NOTE : If the external equipment is a television and this audio system is close to it, you may experience interference if the tuner function is selected while the television is working.
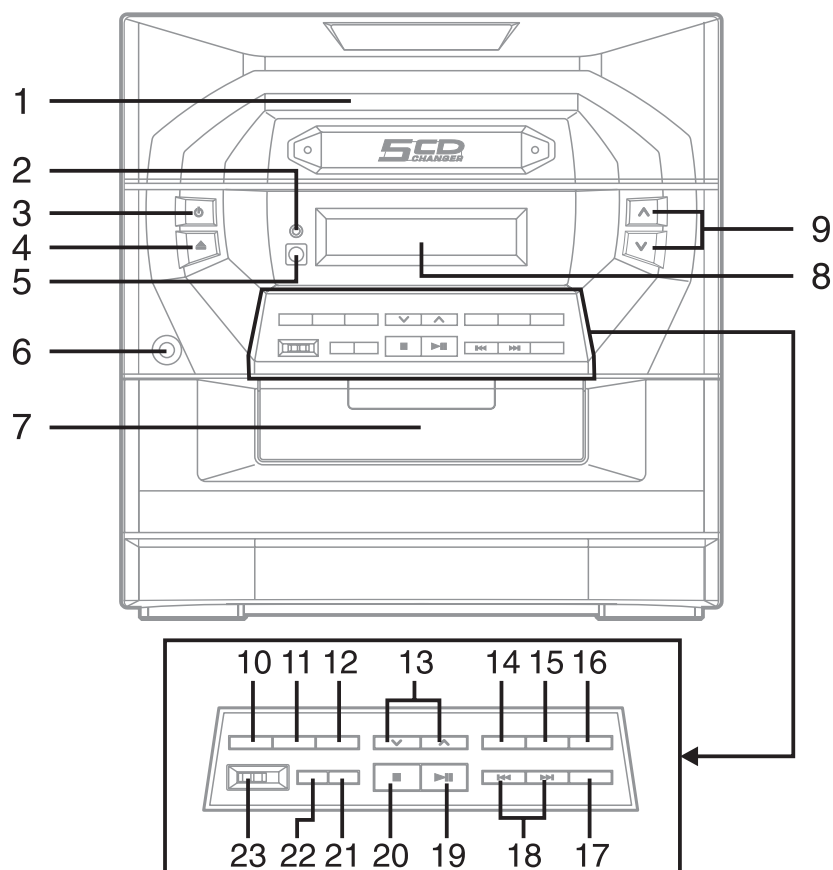

TO TURN ON THE UNIT
Press the POWER button. The display will light up. Select the desired function and the corresponding function indicator will light up.
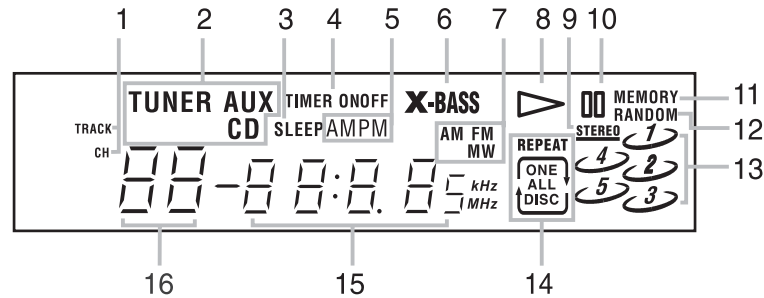

AFTER USE
Press the POWER button. The display light will fade and only the clock display will be shown.

2) The timer will work if the TIMER key is pressed so that "TIMER" lights up in the display. Cancel the timer by pressing the key so that "TIMER" goes out.
3) Suddenly OFF when playing, the TIMER OFF function is activated. Press the STOP button until the 'TIMER OFF' indicator show on the display.

- E8 -

SETTING THE SLEEP TIMER

1. Press the SLEEP button while the power is on. "SLEEP 90" lights in the display.

SLEEP

9 0
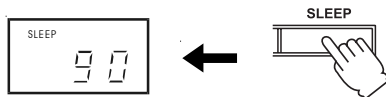

SLEEP

2. Press and hold the SLEEP button to select the length of remaining time until the unit turns off. It changes the indicator in the following way:

SLEEP 90 → SLEEP 80

SLEEP 10 ← ....SLEEP 20
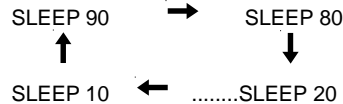

The Sleep Timer is set and the SLEEP indicator lights in the display. Let go when required sleep time (in minutes) is shown.

To cancel the sleep timer, press the SLEEP button once and "SLEEP" will go out in the display.

MANUAL TUNING

The system can store a total of 40 stations. (Each band has a maximum of 20 available preset stations). Presetting allows you to tune into a station directly. Stations are assigned preset numbers, beginning from 1 in consecutive order for each band (AM and FM).

1. Press the FUNCTION button to TUNER, the "TUNER" appears on the display.

FUNCTION
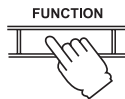

2. Press the BAND button to select the desired band.

BAND
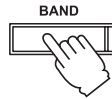

3. Tune into a station. "STEREO" will appear when an FM broadcast is in stereo.

RANDOM ◄— TUNING —►

TO RECEIVE THE FM BROADCAST IN STEREO
Set the FM MODE selector to FM STEREO.
When the FM stereo broadcast is received, FM STEREO indicator lights up.

IF THE FM STEREO BROADCAST SIGNAL IS WEAK
Set the FM MODE selector to FM MONO.
Background noise will be reduced but the signal reproduced will be mono.

TO SEARCH FOR A STATION QUICKLY
Hold the TUNING UP or DOWN button and station searching starts automatically. When a station is found, searching stops automatically.
However, it may not stop if the signal is weak. In this case, search for the station manually.
**Note:**
The last station tuned in will be recalled, even after changing the tuning band or the function, or after turning the power off.
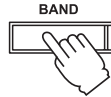

**After use:**
Press the POWER button.
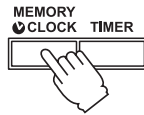

PRESET TUNING

1. Press the FUNCTION button to TUNER. FUNCTION	**2.** Press the BAND button to select a band . BAND	**3.** Tune into a station. RANDOM ◄── TUNING ──►
4. Press the MEMORY/ ⊙ CLOCK button. MEMORY ⊙CLOCK TIMER	**5.** Use the UP/DOWN buttons to select the pre-set number. MIN SKIP • PRESET HOUR ◄◄ ►►◄	**6.** Press the MEMORY/ ⊙ CLOCK button to store the station to the pre-set number. MEMORY ⊙CLOCK TIMER
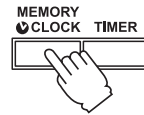

TUNING INTO A PRESET STATION

The contents (preset channel number, frequency and frequency band) which have been stored in memory will appear on the display in numerical order, irrespective of the frequency bands.

FOR BETTER RECEPTION

FM

AM
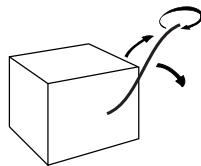

Fully unwind the wire antenna. Then extend the wire antenna and place it in the position that sounds best.
NOTE: Do not connect to outside antenna.

Connect the loop aerial (provided) to the 'AM LOOP ANTENNA' snap terminals at the back of the unit. Position the aerial for the best reception.

COMPACT DISC PLAYBACK
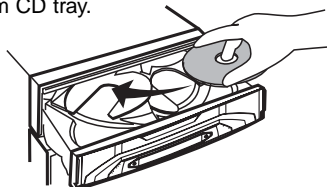

1. Press the FUNCTION button to CD.

BAND   FUNCTION   DISC SKIP

TRACK   CD

2. Press the OPEN/CLOSE button to open the disc tray.
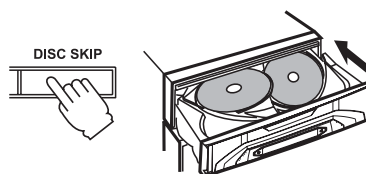

OPEN / CLOSE

3. Place the first disc onto the disc holder, with the label side up.
**WARNING:**
- Before transporting the unit, take out all discs from CD tray.

4. Press the DISC SKIP button to revolve the tray clockwise.
Place other disc(s) on the disc holder(s).

DISC SKIP

5. Press the OPEN/CLOSE button to close the tray.
It takes a short while for your player to check the discs.

OPEN / CLOSE

TRACK   CD

6. Press the DISC SKIP button to select the desired disc. Press either one of the ◄◄ / ►► (SKIP) buttons to select the desired track.
The selected disc symbol will flash.

DISC SKIP

MIN SKIP • PRESET HOUR

TRACK   CD

7. Press the ►|| PLAY/PAUSE button to start playback and the "►" will be displayed.
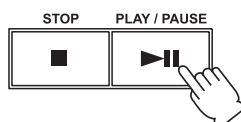

STOP   PLAY / PAUSE

8. To stop playing:

(a) for a moment only, press ►|| PLAY/PAUSE button and ' || ' will be displayed.
Press this button again to resume playing.
(b) Press the ■ STOP button.

COMPACT DISC PLAYBACK (CONTINUED)

**Notes:** 1. During playback, disc tray can be opened to change/add disc and the current disc playback will not be interrupted but DISC SKIP button will become invalid.

2. The ◄◄ / ►►◄ SKIP buttons can only be used to choose a track of the current disc. To choose a track of another disc, DISC SKIP button should be pressed to get to the desired disc first.

3. Before transporting the unit, take out all discs from the CD tray.

## LOCATING A PARTICULAR POINT IN A TRACK

To Locate a Track in Sequence
- To locate the beginning of the current or the preceding track, press ◄◄ reverse SKIP button.
- To locate the beginning of the succeeding track, press ►►◄ forward SKIP button.
- A short period of time will be needed for the disc to read the information of the desired track before playback can begin.
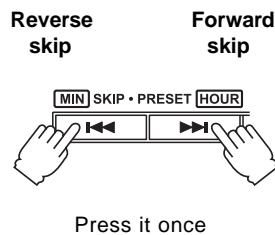

To Locate a Particular Point in a Track
- To move forward at high speed, keep ►►◄ forward SEARCH button pressed and release it at the desired point.
- To move backward at high speed, keep ◄◄ backward SEARCH button pressed and release it at the desired point.
- On forward search the track is rapidly scanned, then the next track and so on to the next disc. The first track on the next disc will be played normally, to carry on scanning release and press the SEARCH button.

USING THE REMOTE CONTROL CORRECTLY
• Point the Remote Control at the REMOTE SENSOR located on the unit.
• When there is a strong ambient light source, the performance of the infrared REMOTE SENSOR may be degraded, causing unreliable operation.
• The recommended effective distance for remote operation is about 6 metres (19 feet).

| TO CHANGE REMOTE BATTERY		
1. Open the battery door.	**2.** Insert one CR2025 (3V) size battery.	**ATTENTION** Take out the PVC sheet before operating the Remote Control.

BATTERY REPLACEMENT
When batteries become weak, the operating distance of the Remote Control is greatly reduced and you will need to replace the batteries.

NOTE:
If the Remote Control is not to be used for a long time, remove the battery to avoid damage caused by battery leakage corrosion.

MAINTENANCE
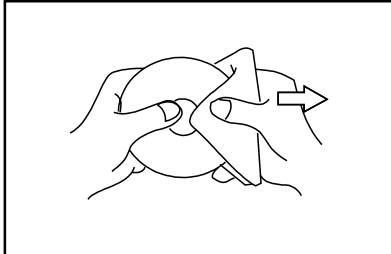

CLEANING CD
If the CD skips or will not play, the disc may need cleaning. Before playing, wipe the disc from the centre out with a cleaning cloth. After playing, store the disc in its case.

CLEANING THE UNIT
Do not use volatile chemicals on this unit. Clean by lightly wiping with a soft cloth.

IMPORTANT NOTE
Before transporting the unit, take out all discs from the CD tray.

TROUBLESHOOTING GUIDE

SYMPTOM	CAUSE (AND REMEDY)
GENERAL	
No sound.	• Press the VOLUME UP button. • The headphones are connected. Disconnect them. • Reset the unit by pressing the Power/Standby switch. • Suddenly OFF when playing, the TIMER OFF function is activted. Press the STOP button until the 'TIMER OFF' indicator show on the display.
No sound from one channel or unbalanced left and right volume.	• Check the speaker connections of the inoperative channel.
Reversed left and right sound.	• Check the speaker cord connection and speaker location.
Lack of bass sound or apparently imprecise physical location of musical instruments.	• Check that the speakers are connected the correct way round.
Severe hum or noise.	• The TV or VCR is too close to the stereo system. Separate the stereo system from the TV or VCR.
RADIO RECEPTION	
The FM STEREO indicator flashes. Severe hum or noise.	• Adjust the antenna wire.
The stereo FM program cannot be received in stereo.	• Set the MODE switch to FM MONO, the FM STEREO light will go out.
CD PLAYER OPERATION	
CD door does not close due to power off or other functions are selected without closing it first.	• Press the FUNCTION button to select CD mode and press the DISC SKIP button. The door will close.
Play does not start.	• The disc's are not placed correctly. • Dirty disc. • The disc is inserted upside down. • The player is in the pause mode.
Distorted playback or sound loss during CD playback.	• Moisture condensation • CD disc is dirty or scratched.
